

## **Dream Analysis Report 11**

**Hi everybody,**

This week's PRACTICAL DREAM ANALYSIS report is about a man who struggles to get his ministry on track. Two problem areas were identified in the dreams (he had two sequential dreams about these problem areas which indicate that it is all about the same issue).

Remember the analysis reports are part of our "Dreams and Visions Interpretation Course" program. These reports will be of tremendous value as it will slowly but surely train you and prepare you to master the gift of the "interpretation of dreams and visions". You will eventually interpret dreams and visions correctly and according to Biblical principles. Of course it will get easier and quicker as you get more familiar with the different principles that govern dream and vision interpretation.

Although it is a gift, it is a gift that God gave all his children.

Although it is a gift, it does take time and practice. Apart from getting more and more familiar with all the different symbols, the principles and the different fundamental principles that govern dream analysis, it also cultivates a closer and more intimate relationship with Christ our Lord.

So, read all the reports as faithful as you can and stand up and be counted!

## **Dream:**

I dreamed we are in this room but I'm with my work colleagues, chatting up with my team leader and I show her the hole in my left foot that's getting bigger and starting on the other foot (this is a clean hole no scarring or bleeding). My team leader tells me to go see a Specialist to stop this as I'm fearing I won't be able to walk.

Before I came into this room I was placing an order for a new car and explaining to the salesman what I am in need of and he agreed to deliver the car without telling me what, or how much it will cost before hanging up the phone. I asked for a mini bus. I'm panicking at this stage looking for a faxed or emailed confirmation as a fax comes through with figures, not wanting to over commit myself not being able to manage.

## **Dream Analysis: (As reported back to the person who had this dream)**

I am briefly referring to different symbols in this analysis. It is important for you to check them out in the dictionary as well so that you have a better understanding of these symbols. It is also important to remember that certain circumstances leading up to a dream or certain questions asked before a dream or a person pondering on something specific before a dream really helps a lot in terms of interpreting the dream. In most cases such information ensures that the interpretation is totally accurate.

## **I dreamed we are in this room but I'm with my work colleagues, chatting up with my team leader.**

This part of the dream speak of this man being part of a "team" with the same interest, on the same quest or journey or same motivations or goals. The team leader is representing a senior person who has the necessary experience to make suggestions or to give advise to the less experienced members of the group. Although a woman normally represents a church or congregation or a specific person, in this dream she is probably a fictitious person and therefore representing experience or wisdom.

## **I show her the hole in my left foot that's getting bigger and starting on the other foot (this is a clean hole no scarring or bleeding).**

A hole in body parts symbolizes weaknesses. It differs a bit from other type of injuries, for instance, when there is bleeding. Bleeding speaks of spiritual deterioration because of the person loosing life (blood - life is in the blood). Loosing blood speaks of a person slowly dying spiritually. The bleeding must be stopped in order to preserve life. In this case it is just a hole in the body part which speaks of something (body tissue) missing. That speaks of some kind of spiritual weakness. It implies that a person does not function at full capacity.

In this case it is the foot which speaks of this person's ability to go out and do what he is supposed to do. It speaks of him going out to do what he was called to do. Left body parts speak of influences and right body parts speak of actions. In this case there is a weakness in the left foot which is slowly spreading to the right foot. This symbolizes this person being influenced by someone or other people which is slowly causing problems or hindering this person to go out and live out his calling (actions).

**My team leader tells me to go see a Specialist to stop this as I'm fearing I won't be able to walk.**

The Specialist is God. This person needs to go and see God so that He can explain to her what is actually wrong with her foot. This person needs to pray and seek God's face in order to get healed from this problem. The healing will manifest the moment that this person understands that he should not be influenced in such a negative way by the person or the people he is allowing to do so. People usually influence other people negatively through wrong teachings and wrong guidance and wrong motivations. "Fearing not being able to walk" speak of this person not being able to do what he is called for.

**Before I came into this room I was placing an order for a new car and explaining to the salesman what I am in need of and he agreed to deliver the car without telling me what, or how much it will cost before hanging up the phone (I asked for a mini bus).**

The first part of this dream is either another problem area regarding the same issue or it sheds more light on the same problem. This man was probably asking God (phone) to use him in a certain way

(ordering a ministry). A taxi or minibus used as a taxi speaks of a teaching ministry. It speaks of a person helping other people (different people - just as people getting on and off a taxi) reaching their destinations (short trips on a daily basis). This speaks of this man helping different people developing spiritually almost on an irregular one-to-one basis (they getting on and off the taxi at different locations and different times).

**I'm panicking at this stage looking for a faxed or emailed confirmation as a fax comes through with figures, not wanting to over commit myself not being able to manage.**

It however appears that this man is either not sure if he will be able to manage such a ministry or not sure if he has the faith (money) to handle such a ministry. It is clear that God does want this person to have this ministry. He approved it. It is probably what he called this man to do. It could be that other people are causing doubt in this person's mind about him being able to carry out this ministry (hole in left foot) or God is showing this person that apart from submitting to the negative influences (hole in left foot), he also has not yet counted the cost in terms of the commitment and faith and sacrifices it would take to carry out this work for him.

### **Interpretation:**

To me it is clear that God called this person to carry out this work for him. This person will be given the opportunity to minister unto other people. He will be instrumental in spiritually developing people. This ministry will be very fruitful. He will help many people reach their spiritual destinations but there are two serious problems that need to be addressed first. This person will have to get to the place where he is allowing only the Holy Spirit to lead him and to guide him. He will also have to accept the fact that if God called him He will also anoint him and equip him to carry out his work effectively. This person also needs to make sure that he is willing to take accountability and willing to pay the price necessary to achieve what God wants him to do.

### **Conclusion:**

I need to make it clear that all we can do is we can help people understand their dreams and visions. We can help them with the basics. We help them with most of the interpretation but even after

we have done that they still need to seek God's face about the dream or the vision. They still need to deal with issues and they need to sort out their responsibilities, actions and reactions in terms of the relevant dream or vision.
