

Dreams Analysis Report 17

Hi everybody,

(The judgment of God on an African Village because of embracing and accommodating a Christian church and church leaders who do not really preach Christ)

This week's **PRACTICAL DREAM ANALYSIS** report is about a man who received a message from God about his decision to punish an African village. This will also hurt the church itself because the judgment rests on the people of the village as well as the members and leaders of this specific church. God does nothing without informing his prophets first.

Please remember to read the post about the Golden Key available to us in terms of dreams and visions interpretation that makes it possible to interpret each and every dream or vision correctly. Click on the link below for more information:

Vision:

Please help me understand the vision I saw:

I was taken to where I stayed when I was a student. The place has a beautiful mountain. I saw myself there talking to a friend I attended school with. She was sitting on a rock looking at me and I was telling her that the mountain behind her is worshipping every morning. As I was telling her that I looked at the mountain's peak and the bright white clouds which were brewing like fire and moving away from the peak of the mountain. A big bird like an aircraft moved inside the normal clouds moving before the brewing clouds. The bird moved to the mountain and then it moved in a northerly direction whilst the brewing clouds were following the it. I was so terrified because of this. I covered my face with both hands while peeping through my fingers. I wanted to see what was going to happen. The clouds quickly caught up with the big bird and there was a big collusion. Stones like fire fell down onto a village. I cried out in silence saying "I wonder what's going to happen to that village?" Then I was back home very shaken and terrified. I don't know what God was telling me. This village is situated in the most Northern region of South Africa just next to a very big and well known church.

Dream Analysis:

I am briefly referring to different symbols in this analysis. It is important for you to check them out in the **Dreams Dictionary** as well so that you have a better understanding of these symbols. It is also important to remember that certain circumstances leading up to a dream or certain questions asked before a dream or a person

pondering on something specific before a dream really helps a lot in terms of interpreting the dream. In most cases such information ensures that the interpretation is totally accurate.

Interpretation:

In dreams and visions, "fire" (in a negative sense) symbolizes judgment.

The mountain probably symbolizes the specific church which has always been associated with this mountain in South Africa. In this vision the "mountain" is worshipping God but its worship is not accepted by God. It is a well-known fact that the Name of Jesus Christ is never preached or even mentioned in this church. God acted by moving (going) for the spirit (bird) influencing this mountain (church) and this particular village.

The fire in the clouds brewing symbolizes the God getting ready for judgment.

The huge bird symbolizes a strong spirit. The white color symbolizes purity, holiness and righteousness and victory. The circumstances and other symbols in the vision however reveal that it is all just pretending to be righteous. It is not really righteousness and purity and holiness. It is actually far from that.

Birds in visions symbolizes spirits (good or bad). This bird is big indicating a very strong and prominent spirit driving the people. This is probably a very prominent person but it can also symbolize a very prominent evil spirit.

This bird was challenging God symbolized by the bird moving towards the mountain.

The bird then fled indicating that God's judgment will be preceded by a period of this prominent person, spirit or people trying to avoid his judgment. The bird attempted to get out of the way but did not succeed. This indicates that as soon as the person or people involved realize that the judgment of God is about to struck them, it was already too late for them to escape his judgment.

Clouds sometimes symbolizes an atmosphere, in this case an atmosphere of judgment. Clouds also symbolizes divine covering or

guidance or protection or oversight in certain situations. In this situation the protection of the church against false teachings and a false Gospel.

The bird fleeing in a Northerly direction symbolizes that this person is pretending to be in the will of God. Whoever this bird represents pretend(s) that he or they are seeking God's face and worshiping at his throne. See "North". This particular church is in fact very secretive about a lot of things and true worship at the throne of God is not really part of it. This is part of the deception within the ranks of the leadership.

The collision symbolizes that there will be a notable incident indicating that God caught up with the false leaders and people and evil spirits in this situation. It will be on everybody's lips.

The stones falling like burning rocks onto the village symbolizes God's judgment on the people involved. In real life these people will suffer difficulty, loose possessions or income, loose their jobs, suffer sudden illnesses, being exposed, death, all sorts of bad things caused by God. The church and the village may still be intact after this judgment but people will surely know that God judged them.

By the way, if you still think that God does not do the things depicted in this report, please read my posts, "[The Biggest Shock Of Your Life!](#)" and "[Is Sicknesses and Diseases From God?](#)".

The reason why God gave you this vision: He never does anything without first telling his prophets about it, He might want you to pray about it, He might be warning you not to get involved there or to warn other people not to, etc. He might even want you to go there and preach about this coming judgment. You need to ask God why He gave you the dream.

Conclusion:

It is so easy to make a mistake when we interpret dreams. We need to connect our dreams and visions to the incident that triggered it in the first place. This will ensure a correct interpretation. However, do not forget that there are times when God speaks to us directly without us asking questions or pondering on matters that is bothering

us or important to us. These dreams are not connected to an incident and are almost always spiritual and actually a lot easier to interpret.

I need to make it clear that all we can do is helping people understanding their dreams and visions. We can help them with the basics. We help them with most of the interpretation but even after we have done that they still need to seek God's face about the dream or the vision. They still need to deal with issues and they need to sort out their responsibilities, actions and reactions in terms of the relevant dream or vision.

See you next week
